

## SPEAKER

### Enrico Cappelletti

Enrico Cappelletti is a Space Engineer, MBA and CBAP. He has more than 13 years of experience in Project Management and Business Analysis on Business Intelligence and Datawarehouse projects. He has developed experience in different fields: Food, Healthcare, Banking, Automotive. He is problem-solving oriented, aware that the solution can't emerge only from an analytical engineering perspective but also from an original and creative approach.

> He loves meeting different cultures and travelling a lot to get them; he is involved in European politics.
