Whether you are new to the profession or are a senior business analyst,

International Institute of Business Analysis™ (IIBA®) offers certification programs to help you improve your skills, profile your knowledge and capabilities and further build your career in today's competitive market.

IIBA® plays an essential role in helping business analysis practitioners gain access to the knowledge, tools and resources by providing leading edge resources, networking opportunities, and recognition and professional certification.

“Being certified by the IIBA brings a lot of opportunities and it really differentiates you as that senior analyst.”

Samia Osman, Business Solutions Lead, MEG Energy

IIBA Certification Offers Many Benefits:

With IIBA® certification, you are acknowledging your skills, knowledge and expertise within the business analysis profession. An IIBA certification will help you:

- Advance your career potential by better positioning yourself for a promotion
- Provide an advantage in today's competitive market
- Gain recognition of your professional competence by peers and management
- Ensure more impactful and effective business analysis execution

IIBA Certification: Ensuring a Path of Success, Recognition and Opportunity

An IIBA certification can help support your career path, and broader market opportunities for business analysis practitioners. With a proven level of competence in the principles and practices, certification offers recognition of professional competence and a commitment to career growth and learning.

IIBA is dedicated to the certification of business analysis practitioners and offers certifications:

(CBAP®) Certified Business Analysis Professional™

CBAP® recipients are distinguished from other business analysis practitioners by acknowledging their capability in the highest industry-recognized standard of knowledge and skills.

The CBAP® Certification is targeted to senior business analysis practitioners with at least five years of business analysis experience.

- Recognized as strategic thinkers and experts in the profession
- Able to take a leadership role on large and complex projects
- Use business analysis skills to drive business success in an organization

Professionals who have earned the designation have completed a rigorous process:

- 7500 hours of business analysis work experience
- 21 hours of professional development in business analysis
- 2 professional references
- Successfully completed the application process
- Successfully passed the certification exam

(CCBA®) Certification of Competency in Business Analysis™

The CCBA® designation is for intermediate business analysis practitioners who have acquired core business analysis skills, with two to three years of business analysis work experience. Business analysis practitioners can earn the CCBA® designation to recognize this milestone in their business analysis careers.

Professionals who have earned the CCBA® certification have completed a rigorous process:

- 3750 hours of business analysis work experience
- 21 hours of professional development in business analysis
- 2 professional references
- Successfully completed the application process
- Successfully passed the certification exam
